

T-Bönz CV Driveshafts are precision-machined of alloy steel, hardened for strength, and finished with a black oxide rust-preventive coating. They have near zero backlash and provide smooth, strong acceleration throughout the full range of suspension movement. These driveshafts are built to last, using rubber dust-proof boots to minimize the wear and tear caused by the dirt and debris.

T-Bönz driveshafts are available to replace the stock plastic or metal center and outboard driveshafts to handle large displacement big block engines, or they can simply be a bullet-proof alternative to the stock driveshafts when running the stock engine.

For the Traxxas Revo 2.5 and 3.3

- TBREVO01X T-Bonz "x" Hardened Steel CV Driveshafts (4). \$69.99
- TBREVO02 T-Bonz Hardened Steel Center CV Driveshafts (2) for Revo 2.5. \$29.99
- TBREVO03 T-Bonz Hardened Steel Center CV Driveshafts (2) for Revo 3.3. \$29.99

For the Traxxas E-Maxx and T-Maxx 2.5/3.3

- TBREVO01X T-Bonz "x" Hardened Steel CV Driveshafts (4)-T-Maxx 3.3. \$69.99
- TBTM01X T-Bonz "X" Hardened Steel CV Driveshafts (4) for T-Maxx 2.5/E-Maxx. \$69.99
- TBTM02 T-Bonz Hardened Steel Center CV Driveshafts (2). (T-Maxx only) \$29.99

For the HPI Savage 21/25/SS/X

- TBSA01X T-Bonz "X" Hardened Steel CV Driveshafts (4). \$69.99
*Shipped with right-tight thread axles and lock nuts

Warranty: T-Bönz CV driveshafts are covered against manufacturer's defects in materials, workmanship or assembly. No warranties are expressed or implied that cover damage caused by normal use or wear, or cover or imply how long any drive shaft part will last before requiring replacement due to wear. Parts will wear from use and occasionally require replacement. All warranty claims are handled by TSAIS/RCHub in the US, or authorized dealers/importers/distributors in your country or region.

Notes:

- Always use blue thread locking compound on the setscrews when installing or reinstalling them onto the driveshafts. CHECK THE TIGHTNESS OF THE SETSCREWS IN THE CV JOINTS AND OUTDRIVE CUPS AFTER EVERY FEW RUNS OF YOUR TRUCK!
- Traxxas Revo; E-Maxx; T-Maxx, and HPI Savage are trademarks of Traxxas and HPI.
